Filed: November 30, 2004

Group Art Unit: 1637

Attorney Docket No. 3875-033

For: MET/FRET BASED METHOD OF TARGET NUCLEIC ACID DETECTION  
WHEREBY THE DONOR/ACCEPTOR MOIETIES ARE ON COMPLEMENTARY  
STRANDS

STATEMENT UNDER 1.821(f)

Commissioner for Patents  
Alexandria, VA 22313-1450

Sir:

In the above-identified application, Applicants have received an Office Action mailed August 20, 2008. The Office Action indicates that Figures 8-12 contain sequences without SEQ ID NO:s. Corrected drawings have been filed herewith to include the appropriate SEQ ID NO:s. Because Figures 8-11 and 19 contain sequences that were not included in the Sequence Listing filed October 30, 2008, Applicants hereby submit a substitute Sequence Listing in CRF complying with 37 CFR 1.822 and 1.823 that includes these sequences. The substitute Sequence Listing in CRF includes sequences 32-35 which are found in Figures 8-11 and 19 as filed, but which were not included in the Sequence Listing filed October 30, 2006. No new matter has been added. The content of the substitute Sequence Listing filed herewith is identical to that of the Sequence Listing filed on October 30, 2006 except for the addition of sequences 32-35 as described above. The Commissioner is hereby authorized to charge any underpayment to Deposit Account No. 50-0951. Applicants request entry of the substitute Sequence Listing filed herewith into the application and examination on the merits is respectfully requested.

Respectfully submitted,

AKERMAN SENTERFITT
